

Do You really know what Satanism is?

I bet as soon as you read this question several things came to your mind and probably none of them were good. Blood sacrifices, black masses, orgies, worship of evil and atrocities of all kinds. This is in fact what society has always told us about Satanism, through the Church, the school and the Media. But the real question is: are you sure this is really the case?

The great writer George Orwell said: "In the time of universal deception, telling the truth is a revolutionary act".

So today we, in the name of the revolutionary spirit that distinguishes free spirits, want to tell you our truth about the greatest deception in human history. A truth that may initially scare you, destabilize you, disorient you. Know that whatever your reaction will be, we will understand you, because everything that you could now experience in your soul we have already experienced in our time.

Discovering the truth at first makes you incredulous. It's scary, because it's not easy to accept that everything we've always been taught can actually turn out to be just a lie. And then, if you manage to overcome fear, anger comes into play: you feel furious, for everything that has been hidden from us and for all the years lost fuelling a sad deception. Finally, if you are lucky, awareness takes over and it is there that our soul finds itself, its origin, and begins to fight courageously for the truth that has always been denied to us...

Dear friend, at this moment you are faced with an important choice in your life. This short booklet wants to tell you an uncomfortable truth that not everyone is willing to hear and you will have to choose whether to be among those who listen or among those who ignore. If these pages ended up in your hands maybe it's not a coincidence, maybe it was fate that you should receive them. But in fact, we create our own destiny and it is therefore up to you to decide whether to go further and listen.

We don't want to upset you or hurt you, so if you believe this truth could harm you, then don't read on, forget us and stick to your beliefs. If, on the other hand, something in you right now feels that something or someone is calling it, then continue this reading, towards a truth that perhaps, in the memory of the soul, has always belonged to you.

What Satanism is NOT

Before talking about what the Cult of Satan really is, it is necessary to spend a few words about what the Cult of Satan is NOT.

- **Satanism is NOT the Cult of Evil:**
It may seem strange to you, but to true Satanists, Satan does not represent evil. The idea that Satan is evil only belongs to the Church and the religions of Yahweh.
- **Satanism is NOT derived from the Bible:**
Contrary to what many think, Satanism is independent of the Bible, since Satan is actually an ancient God who pre-dates the Abrahamic religions.
- **Satanism is NOT Criminal:**
Despite the biased misinformation circulating about Satan Cult, true Satanists are not devotees of evil and therefore do not commit crimes for their own sake.
- **Satanism is NOT an anti-religion:**
Many believe that those who are Satanists simply want to go against the Abrahamic God. It's not like that. Satanists are obviously critical of the religions of Yahweh, but a true Satanist is such not because he hates "God" but because he loves Satan.

SO, WHO ARE THOSE THAT WORSHIP EVIL?

Those who venerate evil are not true Satanists but “Acids”.

Acids lay their belief on hatred of Christ; therefore, they do not follow Satanism but **Anti-Christianism**.

Acidism is typical of criminal sects, such as the **Bestie di Satana** and has nothing to do with true Satanism.

Acids are **NOT** at all devoted to **Satan**, actually they are so angry towards society that they choose to worship what society itself considers evil, in order to spite it.

The Acids therefore do not worship the real Satan but they do worship evil.

What is Satanism then?

Satanism is Origin Cult. The Primordial Tradition from which every other cult descends. Original Satanism tells that in a very distant time some Ancient Souls descended to Earth to enslave the human being. Over time, these Souls have had many names, such as Vigilantes, Grigori, Anunnaki, Nommo, Fallen Angels, Demons, Descended...

Although they had come to monitor humanity and enslave it, they ended up becoming attached to it. The human being had shown himself to be a soul being, potentially divine, and so these Ancient Souls decided to civilize him, providing him with all knowledge.

However, one day some of these Fallen Angels fell in love with some men and women and so they united carnally, generating a new lineage:

The Satanids.

The beginning of the Great War

The union between human beings and Descendants was not well seen by other Entities and so the Great War arose, where all the Ancient Souls and Spirits were divided into two main factions: those who wanted to support humanity and preserve the new mixed-offspring and those who instead wanted to destroy it.

While the divide between the Gods raged, on Earth the Satanids, also known as Giants or Nephilim, prospered, performing great deeds and inspiring the most heroic epic.

The first Satanids were the creators of the Cult of Origins, the Primordial Tradition in which all the initiatory secrets of their ancestral progenitors had been kept.

The Satanids of the Origin Cult were immensely powerful, they had great spiritual strength, their soul was superior to that of ordinary human beings: they knew how to manipulate natural and supernatural energies, they could communicate with spirits and hear the voice of their Sacred Ancestors. From the blood of the Satanids descend all natural Shamans, Witches and Warlocks.

The Satanids were long persecuted by Yahweh's earthly servants, a people with whom He had made a Covenant. Over time they were thus forced to move and, wherever they went, they spread the ancient knowledge of the Cult of the Origins. Thus, it was that every people of the Earth knew the Original History and from there every one of them began to develop their own traditions and to establish their own spiritual relationship with the Ancient Souls.

WHAT, THEN, IS THE ORIGINAL SATANISM?

Today the Cult of Origins is expressed in **Original Satanism**, where the adherents, living heirs of the ancient Satanids, try to awaken their own **Clade** - *a term that indicates the spiritual family* - from the deceptions of the corrupt Yahwehian dictatorship that has reigned over the world for centuries.

In Original Satanism **the ancient Gods of the Origins are believed to be the same Gods of any other pagan cult**, although they have taken on different names over time.

The Satanids, **descending directly from Satan**, have a deep bond with Old Souls and still today they try to fight to evolve their soul and help others.

Why does society want people to believe that Satan is evil?

The answer to these points is all too simple: pure political strategy.

It should be remembered that initially all peoples were polytheistic, even the Jews, and the polytheistic mentality, being accustomed to a multitude of Gods, was certainly more open to plurality of thought. However, when Yahweh made a Covenant with his people, a spiritual dictatorship was established in which one God, the God of Israel, was to prevail.

You will well understand that at that point it was inevitable that every other deity loved and honoured up to then was stigmatized, defamed, in such a way as to "break down the competition".

Thus, it was that all pagan traditions were labelled as devil, "satanic", understood in its most negative sense...

Satanic precisely because Satan was the adversary who opposed Yahweh's deceptions and tried to remind humans of their true origin. Satan was and is the Sophia. Satan and the Demons were and are the Bearers of Light, They give knowledge, freedom and justice, beyond any deception.

Satan is the Morning Star and teaches us to find the light through the darkness, since to reach the Dawn we must inevitably cross the Night.

Who really is Satan?

Satan in the Hebrew language means "adversary", but unlike what the Bible wants us to believe, Satan has never been an opponent of the human being, but an opponent of the God of Israel.

Satan has never been an enemy of man, on the contrary, he has always tried to protect us. Satan has always tried to defend us from Yahweh and the oppressive religious and social systems created in the name of Yahweh.

Satan is Lucifer, the Bearer of Light, certainly not evil as they want us to think. Satan and the Demons are our ancient Gods of the Origins and they have always been trying to offer us knowledge. They are teachers and liberators. But above all they believe in us.

I have met Satan and so many of my brothers and sisters. Satan and the Gods are not jealous and oppressive Gods like the biblical God, They do not force us to worship them, they never demanded that we have faith in Them. However, on the other hand, they have always had faith in us. A faith and love so great that they accept every battle in our name.

By virtue of this, it is really sad to know that today most people hate and fear these noble Old Souls, due to a terrible indoctrination that we undergo from an early age. But despite everything, They continue to fight for us, because they know that even if there are few worthy humans by now, it is worth believing in those few.

Satan is the God of Origins, the God of the Soul, a God who brings us closer to nature and to our interiority. Satan is the God of the Gentiles, a deity who has always inspired us in the night, trying to make us awaken, in order to free humanity from the slavery of dogmas, to make us find ourselves, our truest nature. Satan wants each of us to learn to believe in ourselves deeply, rediscovering our own inner deity.

Satan has never judged our true nature, on the contrary, he raises it, and he wishes that every individual could learn to accept and love each other for what they are, beyond the unjust prejudices of any bigoted false morality.

How is sex regarded in Satanism?

Many believe that Satanists engage in orgies and live in sexual promiscuity. In reality, that's not necessarily the case.

Satanists see in sex something totally natural, beautiful and positive, while in the religions of Yahweh sex and the flesh are condemned, sex without procreation and mere sexual desire are considered "impure acts".

In Original Satanism, on the other hand, sex is seen as something pure, even when it is done beyond reproductive purposes.

This is because in Satanism sex is considered sacred, an act of love, pleasure, joy and sharing, something natural which, in addition to being able to generate life, can glorify the love between two people or even just offer them moments of communion and happy intimacy.

Satanism does not see something prohibitive or transgressive in sex and therefore it is lived naturally, according to the individual feeling of each Satanide.

This does not mean, however, that in Satanism there are orgies. In fact, "Satanic" orgies are usually made up of sad bored indifferent people, people often with a lot of money, little soul and a lot of boredom, who improvise Satanists based solely on the fallacious Christian idea of Satan. They are not true Satanists but simple repressed Christians.

In Original Satanism everyone lives sexuality as they wish, there are no prejudices towards homosexuality or any fantasy, provided it does not harm third parties. This means that if a Satanide were prone to a strong sexual appetite, to the point of finding orgies congenial, he would do them solely for mere personal pleasure, in the name of himself and certainly not of Satan's.

Are animal sacrifices made in Satanism?

Many believe that Satanists kill animals in their rituals. It is actually just a slander, since animals and children are sacred in Original Satanism. Satan is God of nature and animals are considered to be emanations of the divine. For the Satanids, animals are special creatures and killing them in a ritual would mean attracting the wrath and indignation of our Gods.

In reality, even if few people know it, it is Yahweh who has always asked his followers for animal sacrifices, as we can read in the Bible itself.

“When one of you wants to make an offering to the Lord, you will offer herds or flocks. He will place his hand on the victim's head, which will be accepted on behalf of him to make the atonement rite for him. Then he will slaughter the calf

WHAT RITUALS DO SATANISTS DO?

Do Satanists have black masses? **NO.**

The Black Mass is in fact a ritual whose purpose is to dishonor Christian idols, while the Satanic rites have the purpose of honoring Satan and the Gods of the Origins.

In Original Satanism the rites are not blasphemous, but they are profound demonstrations of love for the Sacred Satanic.

In our rituals we pay tributes to the Gods, recite mantras, prayers, songs, all without harming anyone.

Also, Satanism is an individual cult, where there are no priests to celebrate mass. Each Practitioner is a priest of himself and celebrates his rituals alone.

DO SATANISTS SACRIFICE CATS?

Every year, on the occasion of **Halloween**, announcements rain down on social media in which intolerant Catholics warn of the danger of cat sacrifices by Satanists.

This is nonsense, **since cats are sacred in Satanism**. And the incredible thing, which perhaps not everyone knows, is that historically it has been proven that the **Catholic Church, for 7 centuries, exterminated cats during the Inquisition**. Cats were killed, tortured and burned together with witches, as they were considered "demonic" animals.

Unione Satanisti Italiani, has in fact donated over two thousand euros to a feline colony and a doghouse, through the **Sabba di Beneficenza** project

before the Lord and the priests, the sons of Aaron, will offer the blood and sprinkle it on the altar. He will flay the victim and cut them to pieces. The sons of Aaron the priest will put the fire on the altar and put the wood on the fire, then they will place the pieces, the head and the fat on the wood and on the fire that is on the altar. He will wash the entrails and the legs with water; then the priest will burn it all on the altar as a holocaust, a sacrifice consumed by fire, a sweet aroma to the Lord."

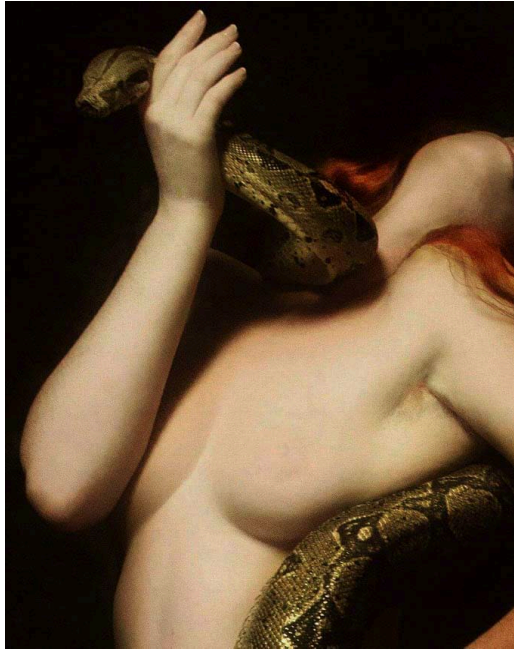

- **Levy 1,9**

This biblical passage makes it clear that the God of animal sacrifices is not Satan, but Yahweh. Those who seriously study the Bible, Hermeticism and anthropology know well that many sins of the biblical God have been downloaded onto Satan for convenience, transforming the God of the Soul, our liberator, into a convenient scapegoat. Satanists **DO NOT** make animal sacrifices, it's a slander. Animals are sacred to Satan and Satanists love them very much.

What are demonic possessions?

Many fear Satanism because of the infamous phenomenon of demonic possession. Films, documentaries, television reports, a flood of propaganda scoundrels specifically aimed at inducing psychological terrorism towards Satan in people.

Unfortunately, history teaches us that when someone is not liked by the powerful, he is systematically defamed, stigmatized, in

such a way that the common opinion is against that person or against that category of people.

This can happen against a race, a sexual orientation, as well as against a religious minority.

When the powerful decide to turn public opinion against someone, they often and willingly use the weapon of fear, psychological terrorism, thus creating a bogeyman to fear and hate.

WHAT IS THE REAL CAUSE OF POSSESSIONS?

Possessions are very rare and most often are only of psychic origin. It is no coincidence that the "possessed" are almost always Christian fanatics, very repressed individuals who, feeling guilty for their natural instincts, end up dissociating themselves and creating a demonic alter ego to whom they attribute the possession. In psychiatry this disorder is called **Demonomania**.

In the rare cases in which the possession is real, the causes can mostly be attributed to simple **spirits of the deceased**. This is because those who hang over after death may desire a physical body capable of interacting with matter.

Demons, do not possess people, since their spiritual energy is too high to be able to remain in a body.

Precisely for this reason the theme of possessions was abundantly supported by the Church, Cinema and the Media, because it was something that terrified people enough to keep them away from their adversary: Satan.

The Church wants people to stay away from Satan because they know that Satan is a pure and honest deity, and that therefore he will tell people the truth, making them wake up and thus making them free and independent, which the Yahweh regime does not want.

Precisely for this reason they always invent new stratagems to keep us away from the Bearers of Light, from the Gods of the Soul, passed off by the regime as evil Devils.

Does the pact with the devil exist?

Many think that Satanists make pacts with the devil to obtain earthly benefits in exchange for their souls. Actually, this is a lie.

The historical origin of the notorious "pact with the devil" is actually a Judeo-Christian heritage and derives from the Covenant that the people of Israel made with Yahweh, also mentioned in the Bible. The God of covenants has always been Yahweh, not Satan. Yahweh makes several Covenants with the Jews, both with Abraham and with Moses, and each time He requires to be the only God worshiped and to receive total obedience. In return he says that he would have offered his people infinite goods and absolute power over all other peoples - see: *Deuteronomy 28* and *Exodus 19*.

Satan, on the contrary, despises anyone who approaches his worship of him only for ulterior motives. Contrary to what the slanderers tell, Satan is not the lord of matter, but the God of the Soul.

Although, in fact, Satan is God of nature, of animals, of instinct, and therefore does not condemn the human flesh and passions, at the same time he is also the deity of Soul Knowledge, the Sophia, i.e., everything that the human being can learn through

emotion, spiritual intuition and inner gnosis. Satan teaches through the soul and listening to our soul is the best way to learn his teachings, beyond any false doctrine.

Original Satanists DO NOT make "deals with the devil", they do not sell their souls for power. True Satanids consecrate

themselves to Satan without asking for anything in return, simply out of love, to consolidate the deep emotional bond that exists between ourselves and our sacred ancestral ancestors. In Original Satanism we love Satan and Demons without ulterior motives and we are reciprocated in turn. Our God is not a "jealous" God, he does not demand absolute adoration, he is not

threatening or self-centered as the biblical God often appears. Satan loves selflessly and teaches to love without ulterior motives.

Yahweh in the Pact stipulated with the Jews - Deuteronomy 28 - affirms that he will give his followers great powers, but also affirms that, if instead they worship other Gods or do not follow his orders, they will suffer serious punishments. In Satanism, however, this is not the case.

Those who consecrate themselves to Satan do not do it to gain power, but do it because they really believe in certain ideals and above all not for fear of some divine punishment. The bond with Satan, God of the Soul, is based solely on real love and emotion. It is a spiritual ideal.

Do Satanists Pray?

Satanists pray, even if we don't like the term prayer. This is because etymologically the term prayer means "supplication", therefore "to ask the Gods for something". In Original Satanism, on the other hand, when we pray, we don't do it to beg and ask for something, we do it solely to honor our Gods and to live the Sacred. For this reason, we prefer the term Oration to the term prayer.

In Original Satanism we have several mantras and prayers that we recite to honor Satan and the Old Gods, as well as we have Ritual Songs to celebrate them. Several Satanids in our community create art and music for the Gods, in order to honor Them and the art itself, such as the Bluemorphosis project and Starting Fire.

Do Satanists Have Altars?

Satanists obviously have altars, even though unlike other religions we have no liturgical obligations. Many Satanists like the altar, as well as any ritual, however no one is obliged to follow dictates, everyone can experience the Worship as he feels, because every soul is rightly different and must follow his own intimate Feeling.

For example, I and other Satanids have large altars that tell our story and our passion for the gods. The altar, in addition to being a riot of beauty, is above all very useful in celebrations, inducing us to carve out moments of the Sacred Satanic in our daily life, often, as for everyone, very busy.

WHAT IS THE TRUE MEANING OF CERTAIN SATANIC TERMS?

Many believe that the word Satan means adversary. This is true in the Hebrew language. But did you know that in Sanskrit the root **Sat** means truth and **Ana** breath? Indeed, Satan is the one who "blows", "inspires" the truth in us.

Lucifer, on the other hand, comes from the Latin and means "bearer of light".

Demon, for example, is a term of Greek origin and also in this case precedes Judaeo-Christianity.

Demon meant "divine spirit" and was the entity that performed the function of intermediary between the earthly world and the divine world.

Originally, therefore, these terms were positive and did not have any negative meaning.

Are the religions of Yahweh sexist?

For millennia, women have been discriminated against and subjugated. This is mainly due to the Abrahamic religions which, by brainwashing us from an early age through coercive indoctrination, have led billions of people to adopt a misogynistic mindset.

In the Bible, as well as in the Talmud and the Koran, we can read many verses that are strongly male chauvinist. In the Bible, for example, we find phrases such as:

"You wives, be in subjection to your husbands, as is fitting in the Lord".
(Colossians 3,18)

"I find that woman is more bitter than death". (Ecclesiastes 7,26)

"If the young woman is not found in a state of virginity, then they will bring her out to the entrance of her father's house and her people from her city will stone her, so that she will die".
(Deuteronomy 22,20)

ARE THERE DISCRIMINATIONS IN THE ORIGINAL SATANISM?

In Original Satanism there is no discrimination of any kind. Le donne sono molto rispettate, così come lo sono anche omosessuali e transgender.

Women are highly respected, as are homosexuals and transgender people. This is because in Original Satanism the yardstick for evaluating an individual is determined solely by his soul and his actions.

If a person has value and demonstrates it with facts, it doesn't matter whether he is male or female, it doesn't matter what ethnic group he belongs to, nor does it matter his sexual orientation.

The soul and concrete actions are all that really matter to us. Beyond any biased political vision or flag.

“When a woman gives birth: the impurity of the mother lasts 7 days; 14 for a little girl”. (Leviticus 12,2)

“It is because of the woman that sin began and it is because of her that we all die”. (Siracide 25,24)

“Let the woman learn in silence, with complete submission. I do not allow any woman to teach, nor to lay down laws to men; she rather she stays in a calm attitude. It can be saved by giving birth to children, on condition of persevering in faith, charity and sanctification, with modesty”. (1 Timothy 2, 11-15)

“A woman who has a flow of blood for many days is impure. Every piece of furniture she sits on will be unclean, as it always is when she is menstruating. Anyone who touches those things will be unclean”. (Leviticus 15, 25-28)

“To the woman God said: «I will multiply your pains and your pregnancies. I gave birth in pain. Towards your husband your instinct will be, but he will rule over you”. (Genesis 3, 16)

Is There a Morality in Satanism?

In Original Satanism there is no enforced morality, but there is a Natural Ethics. This ethos, called "Satanic Ethics" is what inspires the values of the Satanic community.

In Original Satanism we do not have dogmas and dictates, since we are a free cult, not a doctrine. However, we still have ethical principles on which our very inner nature is founded.

A good way to understand if you belong to the Satanic Clade is to learn the Satanic Ethics and ask yourself whether or not you recognize yourself in it.

The 9 Values of Satanic Ethics:

COMPLETENESS: understood as the result of an initiatory path in which to experience the different dichotomies, with the ultimate aim of transcending them. The knowledge of the different polarities and their overcoming.

BEAUTY: intended as a search for what makes us feel good and elevates us, based on the Hellenic concept "Kalós kái agathós", which literally means "what is beautiful is also good".

HONOR: understood as the most noble and absolute form of respect for oneself and one's family. For a Satanist, Honor equals living proudly in line with one's nature.

TRUTH: intended as the light that dissolves the darkness of lies. Truth is a cornerstone of Satanism. It means being honest with yourself and with others, beyond any convenient illusion.

JUSTICE: understood as the ability to know how to discern right from wrong, on the basis of inner feelings and not false morals, combining logic, strength and empathy, listening to the mind and heart, as well as arid-ity or goodness.

FREEDOM: intended as a real evolution of oneself. Freedom for the Satanist has a soteriological function, revealing itself not as a means to simply be able to do anything, but to be truly oneself.

WISDOM: understood as the elimination of ignorance through theoretical and practical research. Study, experimentation, doubt and curiosity are important elements of the initiatory journey of a Satanist.

PATHOS: intended as the ability to fully experience one's emotional sphere, without however being slaves to it. Live everything with passion, accepting both positive and negative emotions, with courage, strength and wisdom.

IDENTITY: understood as the reconstitution of who we really are, both as individuals and as a spiritual community. Reconstitute our identity beyond external conditioning and indoctrination suffered.

FAQ - Frequently Asked Questions

What is good and evil in Original Satanism?

Good and evil are relative concepts, but broadly we can say that everything is good that is in line with one's nature and does not harm others. Living freely, according to one's Feelings, beyond prejudices, without hurting anyone, trying to improve oneself and one's portion of the world, helping others, is certainly good. Hurting others unjustly and living in self-deception is certainly bad.

Are there dogmas in Satanism?

No, Satanism is a free cult, there are no liturgical or doctrinal obligations. Although we have common values, everyone can live the Worship on the basis of their own Feelings, as long as it does not corrupt its essence.

Can You Become a Satanist?

In Original Satanism the concept of conversion does not exist, no one "becomes" a Satanist, at most there comes a moment in life when one discovers he is one.

Is there a satanic baptism?

Yes, there is a ritual of consecration to Satan, called Dedication of the Soul, it is a very beautiful moment in which we ritually reunite with Satan and our Family, but like any rite of Satanism, it is not mandatory. Only those who spontaneously feel they do it, with their heart, do it.

Are there any social problems in being a Satanist?

Unfortunately, yes. Being a Satanist in Italy is not easy, having the Vatican at home. The mentality is closed and full of prejudices. Many Satanists who have exposed themselves suffer discrimination, whether at work, school, family or social relationships.

If I Join Satanism, do I have to leave my family?

Absolutely no. We always encourage people to have a dialogue with their families, especially if they are minors. It is important to involve your families, so they can understand that you have not joined a "dangerous cult" and therefore are completely safe. Many people believe that Satanism is evil and so they may rightfully be initially scared for you. Many people then understand and reassure themselves, while

others, being intolerant, end up abandoning their affections, as they are unable to accept their nature.

Why do Satanists like darkness so much?

I state that in Original Satanism we also like light. In the name of Completeness, the first value of Satanic Ethics. However, darkness is very important to us, but darkness is not synonymous with evil, if anything, it is synonymous with what lives deep down, in the depths of our soul, the source of all Knowledge.

What is Unione Satanisti Italiani?

If reading all this you have felt something familiar and you understand that you are part of our spiritual family - or maybe you just want to find out better - search online for Unione Satanisti Italiani, the main Italian satanic community.

Unione Satanisti Italiani was founded in 2010, and since then it has been working to disseminate correct information on Original Satanism, beyond the falsifications and clichés. USI is also a point of reference for all Satanids who wish to get to know Brothers and Sisters with whom to share part of their Path or even just forge deep friendships.

In USI there are no teachers, there are no hierarchies based on roles, there are no initiatory tests imposed, nor is a registration fee required. Anyone who sincerely shares its spirit and ideals belongs to USI.

In addition to providing information and offering initiatory tools for Practitioners, for years USI has also been trying to fight for the rights of the Satanic community, which has always been subject to discrimination and religious racism. This fight has been carried out over the years through the website, social networks and the media, to which USI has often released statements and in-depth interviews.

“Satan has never been an enemy, but a teacher, a liberator, a magnificent example of nobility, greatness and power”

“One cannot hope to obtain freedom and knowledge without having been able to risk the leap into the abyss. But no price is too high for the privilege of rising above all things and truly possessing yourself”

“Satanism is born of Silence”

“If you don't face the abyss, if you don't fight to overcome your limits, you will lose yourself.

No favours, no glory and no fortune for those who limited themselves to being”

“Truth is like the feeble light of a candle: you will never see it in the deceptive glare of a blinding light, but in the silence of darkness”

“Satan is a name that has always instilled fear. And the journey towards truth has fear as its first threshold”

“Facing with the fall of dogma, there is no prohibition that holds: we see reality for what it is and we are no longer afraid”

“Fighting for the just, shout the truth, protect the sacred”
